

## Shiraz Adobe® PDF Plug-In

Shiraz Adobe PDF plug-in embeds complete handling of Adobe PDF functionality within the Shiraz software products, providing a consistent reliable, accurate and supported implementation of the latest Adobe PDF specification.

Shiraz RIP now benefits from the same core technology that Adobe uses to build Acrobat enabling high-performance Adobe PDF processing. The optional Plug-In can be added to extend the functionality of the RIP to full Acrobat 9 (PDF 1.7 +Ext) certification.

### Adobe® PDF—Universal Format for Electronic Document Exchange

With a track record of more than 15 years, Adobe PDF is the standard for more secure and reliable distribution and exchange of electronic documents and forms around the world. It is a universal file format that preserves the fonts, images, graphics, and layout of any source document, regardless of the application and platform used to create it. Increasingly used by creative professionals in the graphics market to create and exchange state of art designs, PDF format has become standard delivery format in digital printing market.

### Shiraz Adobe® PDF Plug-In Benefits
